

# Python as a second language

Introduction to Python

1

## Thank You

- Geert Jan Bex
  - <https://github.com/gjbex/training-material/tree/master/Python>
  - <https://creativecommons.org/licenses/by/4.0/deed.ast#>
- Slides + demo-files
  - [https://franklbvp.github.io/python\\_intro/](https://franklbvp.github.io/python_intro/)

2

## Using the demo files

- Using the demo notebooks
- Download the zip file
- Unzip the file in c:\Temp
- Start Anaconda powershell
  - 'cd' to the folder with ipynb files
  - `jupyter notebook`

3

## Content

- Introduction
  - Slides: [GJBex](#)
- Environment
  - User environment
  - Command line
  - Spyder
  - Notebook
  - *Slides: Python\_intro-userEnvironments*

4

# Content

- Basic syntax
  - *Slides: Python\_intro-programming-syntax*
- Variables
- Operators
  - *Slides: Python\_intro-programming-variables\_operators*
- Built-in atomic Data types
  - *Slides: Python\_intro-programming-builtin\_datatypes*
- Data structures
  - Lists
  - Tuples
  - Sets
  - Dictionaries
  - *Slides: Python\_intro-programming-datastructures*

# Content

- Flow control
  - Basic flow control commands
    - *Slides: Python\_intro-programming-control\_flow*
  - Functions
    - *Slides: Python\_intro-programming-functions*
- IO
  - *Slides: Python\_intro-programming-io*
